LECTURES

Detailed lecture program is provided on the conference webpage www.iscre28.org. The program consists of four (4) plenary lectures, fifteen (15) keynote lectures and approximately 200 oral presentations. The lecture halls are marked with signs ROOM1, ROOM2, ROOM3, ROOM4, ROOM5. The length of Plenary lectures is 60 min. If the speaker ends before 60 min, 1-2 short questions are allowed. The total length of Keynote lectures is 30 min; preferably 27 min of lecture and 3 minutes should be reserved for questions. The duration of oral presentations is in total 20 min i.e. 17 min lecture and 3 min for questions. It is very important to keep the time schedule, since the delegates must have the possibility to move between the sessions. The session chairs will lift a yellow card few minutes before the end of the lecture time and a red card at the end of the scheduled time. Please, check the time and site of your lecture in the conference program, and go to the lecture room before, preferably some hours or a day before the lecture and upload your presentation on the computer. Technical personnel will help you. Before the sessions, we hope that each speaker meets the session chair, so that the speaker will be presented in a correct way to the audience. Except the plenary speakers, the presentation of the speakers should be kept short because of the tight time schedule. In case of a cancelled lecture, the program schedule should not be shifted, but a break should be taken, and after the break, continuing according to the schedule.

POSTER PRESENTATIONS

A big hall is available on the ground floor of LOGOMO for the poster session. All the posters will be simultaneously available at the disposal during the conference. The poster program is available on the conference website www.iscre28.org. Technical personnel will assist you in putting up the poster. Please check carefully in the Poster Program, the category of your poster (B, C, D, E, F, M, N, P, R) so that you easily find the place of your poster.
